RECENT PROJECTS

Catch Up News Network

[Live](#) • [GitHub](#)

A full featured social network where a user can post news articles to show on a friend's newsfeed. Users can follow other users, can up and down vote posts, and can comment on posts.

- Gained a deeper understanding of HTML and CSS by custom making "thumbnails" for articles
- Implemented AJAX in multiple areas of the website to make a better user experience

watermelon.

[Live](#) • [GitHub](#)

A fun and simple single page app that asks to confess a feeling and responds with an opposite gif. Ex: A user input of "good" will respond with "bad" related gifs.

- Understood APIs by utilizing both the Giphy and Words APIs
- Executed jQuery and Javascript functions to interact with a user through the browser

SKILLS

Ruby, Ruby on Rails, HTML, CSS, Javascript, git, AutoCAD, MATLAB, C++, Python, Visual Basic
